The Committee remains seriously concerned about the prevalence of residential care of children, in the absence of a national policy and strategy to promote foster families in the State party, and the absence of social programmes for the reintegration of children into their communities.</p> <p>28. The Committee recalls its previous concluding observations (see CRC/C/GTM/CO/3-4, para. 59) and recommends that the State party:</p> <ul style="list-style-type: none"> (a) Adopt a strategy to promote family-based care for children in all circumstances and provide sufficient budget allocations to foster families across the country; (b) Expeditiously adopt a strategy with benchmarks and goals for the deinstitutionalization of children, strengthen local and municipal provision of services for children and families and avoid building any new large care institutions; (c) Adopt safeguards and criteria, based on the needs and best interests of the child, for determining the placement of children, including children with disabilities, in alternative care only as a last resort, and adopt a timetable for the closure of care institutions and a moratorium on new institutionalizations; (d) Ensure periodic review of the placement of children in foster care and institutions; (e) Create a registry of children in residential care, disaggregated by sex, age, ethnic origin and type of disability, aimed at enhancing social reintegration. <p>Adoption</p> <p>29. The Committee recommends that the State party ensure that all safeguards provided for in the Hague Convention on Protection of Children and Cooperation in respect of Intercountry Adoption are met when children are adopted into families from countries that are not contracting States to that Convention.</p>

The Committee is deeply concerned:</p> <ul style="list-style-type: none"> (c) That institutionalization is used as a main measure in cases of poverty, neglect, violence or family separation; <p>31. With reference to its general comment No. 9 (2006) on the rights of children with disabilities, and recalling the recommendations that the Committee on the Rights of Persons with Disabilities addressed to the State party (see CRPD/C/GTM/CO/1, para. 24), the Committee urges the State party to:</p> <ul style="list-style-type: none"> (d) Ensure that all children with disabilities are able to live in a family setting, on an equal basis with other children, and adequately train foster parents for that purpose; <p>H. Subjects of concern</p> <p>B. Specific rights (arts. 5-30)</p> <p>Children with disabilities (art. 7)</p> <p>23. The Committee is concerned at the high rate of maltreatment, abuse, corporal punishment, abandonment and institutionalization of children with disabilities; at the prevalence of the welfare and charity-based approach to their care; and at the limited scope of specific measures taken on their behalf in rural areas and indigenous communities.</p> <p>24. The Committee recommends that the State party:</p> <ul style="list-style-type: none"> (a) Amend article 13 of the Act on the comprehensive protection of children and adolescents and article 253 of the Civil Code, as recommended by the Committee on the Rights of the Child (see CRC/C/GTM/CO/3-4, para. 54); (b) Take all necessary measures to implement an effective system for detecting the maltreatment of children with disabilities in family, educational, health-care and institutional settings, and entrust the Office of the Advocate for Children and Adolescents with addressing the issue of children with disabilities who are subjected to abuse and maltreatment; (c) Establish the legal basis and financial support necessary to ensure that all children with disabilities are able to live in a family setting and to exercise their right to inclusive local services for children; (d) Ensure that children with disabilities are taken into account in laws, policies and measures regarding children, on an equal basis with other children and based on the principle of inclusion in the community;
-----------------	------------	---

		<p>(e) Put in place safeguards to protect the right of children with disabilities to be consulted on all matters of concern to them and ensure that they receive assistance that is accessible and appropriate to their disability and age;</p> <p>(f) Prohibit and eliminate corporal punishment of children.</p> <p>Freedom from torture or cruel, inhuman or degrading treatment or punishment (art. 15)</p> <p>43. The Committee is concerned that the steps being taken by the State party, in response to the concluding observations of the Committee against Torture (CAT/C/GTM/CO/5-6), to separate convicted prisoners and persons with disabilities in mental health hospitals, closed institutions and prisons, and the implementation of the precautionary measures requested by the Inter-American Commission on Human Rights for persons with disabilities at the Federico Mora National Mental Health Hospital, do not adequately protect persons with disabilities and are not in line with the Convention.</p> <p>44. The Committee recommends that the State party duly implement the concluding observations of the Committee against Torture (CAT/C/GTM/CO/5-6) and the precautionary measures requested by the Inter-American Commission on Human Rights with regard to the Federico Mora National Mental Health Hospital, in accordance with the principles and obligations set out in the Convention and these concluding observations. It also recommends establishing an independent mechanism for the monitoring of closed institutions for persons with disabilities, including those for children with disabilities, in order to prevent and protect against acts that could be considered torture or cruel, inhuman or degrading treatment or punishment.</p> <p>Freedom from exploitation, violence and abuse (art. 16)</p> <p>45. The Committee is deeply concerned that many persons with disabilities, especially women and children, frequently fall victim to exploitation, violence and abuse and that there are no measures for their protection, rehabilitation or compensation. It is also concerned that instances of exploitation, violence and abuse committed against such persons, especially within the family or in institutions, are not properly investigated and that the perpetrators therefore go unpunished.</p>
--	--	--

		<p>46. The Committee recommends that the State party redouble its efforts and adopt a due diligence framework and all the necessary measures in its laws and policies to protect persons with disabilities from exploitation, violence and abuse and to ensure the proper recovery of victims in an appropriate environment. It also recommends the inclusive and accessible provision of support for victims, the implementation of a complaint mechanism and the provision of training for police, the judiciary, social workers and health professionals. In addition, the Committee urges the State party to investigate properly all instances of exploitation, violence and abuse committed against persons with disabilities, particularly against women and children, in order to ensure that they are identified, investigated and, where appropriate, prosecuted. Lastly, the Committee requests the State party to periodically compile data and statistics on the situation of persons with disabilities in respect of violence, exploitation and abuse, including information on trafficking, incest and femicide.</p> <p>47. The Committee is concerned by the lack of protocols for the registration of orphanages, hospitals, prisons, shelters and other public or private residential centres for persons with disabilities and the monitoring of conditions there.</p> <p>48. The Committee recommends that the State party set up an independent monitoring mechanism, in line with article 16 (3) of the Convention, to register and oversee conditions in residential institutions for persons with disabilities.</p> <p>Protecting the integrity of the person (art. 17)</p> <p>49. The Committee is concerned that persons with disabilities, especially women and girls who have been sexually abused, deprived of their legal capacity and/or institutionalized, are subject to sterilization, abortion and other contraceptive treatments without their consent.</p> <p>50. The Committee recommends that the State party adopt all possible measures to ensure that no women or girls with disabilities are subject to forced sterilization or abortion and that all medical procedures and treatments concerning persons with disabilities are contingent on their free and informed consent.</p> <p>Living independently and being included in the community (art. 19)</p>
--	--	---

		<p>53. The Committee is concerned by the high number of children and adults with disabilities being held in institutions. The Committee is particularly concerned by the situation of persons at the Federico Mora National Mental Health Hospital, who are isolated indefinitely. It is also concerned by the large number of children, including many with disabilities, who are currently in institutions. The Committee notes with concern the lack of local community services designed to meet the needs of persons with disabilities to enable them to live independently. In addition, it is concerned by the lack of support for the families of children with disabilities to ensure that such children are able to remain in the family environment.</p> <p>54. The Committee recommends that the State party:</p> <ul style="list-style-type: none"> (a) Urgently draw up a strategy for the deinstitutionalization of persons with disabilities, with time frames, adequate resources and specific assessment measures; (b) Allocate sufficient resources to the development of local community support services, including personal assistance, to enable all persons with disabilities, regardless of disability, gender or age, to choose freely with whom, where and in what living arrangement they wish to live; (c) Provide support to families of children with disabilities to prevent family breakdown and institutionalization of the children; (d) Abolish the institutionalization of children of any age. <p>Respect for home and the family (art. 23)</p> <p>57. The Committee notes that the Civil Code restricts the right to marry and the parental rights of some persons with disabilities. It further notes that children with disabilities living in poverty are at greater risk of abandonment and institutionalization.</p> <p>58. The Committee recommends that the State party:</p> <ul style="list-style-type: none"> (a) Review and harmonize the Civil Code to guarantee the right to marry and the parental rights of all persons with disabilities; (b) Set up programmes to provide appropriate assistance to mothers with disabilities in the performance of their child-rearing responsibilities; (c) Establish support mechanisms for families of children with disabilities to prevent abandonment;
--	--	---

		<p>(d) Replace measures to institutionalize all abandoned children with disabilities with measures to promote their adoption or placement in foster care and ensure that foster families receive the requisite support for their care.</p> <p>C. Specific obligations (arts. 31-33)</p> <p>International cooperation (art. 32)</p> <p>74. The Committee notes with concern that the limited funding sourced from international cooperation is frequently used to finance institutions where children and adults with disabilities are permanently segregated and that many such institutions are sustained by the growing trend towards voluntarism in Guatemala.</p> <p>75. The Committee recommends that the State party ensure that funding sourced from international cooperation is used in accordance with the Convention and substantially reinforce the mainstreaming of disability in the National Development Plan, K'atun nuestra Guatemala 2032.</p>
