## FOREWORD BY THE MINISTER

The Ministry of Social Welfare, Gender and Children's Affairs is charged with the responsibility of responding to the social needs pertaining to Gender inequalities, social depravity of groups like the disabled, women rights, child rights, Religious rights among others in Sierra Leone.

The challenges facing the Ministry are enormous in terms of breakdown of social fabric of families and institutions during the wartime in Sierra Leone. Therefore, the Government of Sierra Leone mandated the Ministry with social responsibility to promote and look into the issues of gender empowerment, vulnerable groups, children, elderly and persons with disabilities.

The Ministry of Social Welfare, Gender and Children's Affairs through its ongoing functional review management reforms, has developed this strategic plan, through extensive consultations with all stakeholders, to guide priority setting and deployment of resources, in the social sector. In the process of developing this plan, adequate analysis of the current situation has been done and future challenges identified.

The plan was prepared in a participatory manner, involving experts from the Ministry of Social Welfare, Gender and Children's Affairs, and other Ministries, as well as, Local Government Authorities, the Private Sector and Development Partners. Technical Planning Groups convened several times, in meetings and retreats. More than 200 people contributed to the preparation of the plan. The Social Policy and Planning Unit of UNICEF coordinated the production of this strategic plan, finalized in a retreat held in Makeni facilitated by EDRA Consultancy.

The Decentralization policy of the Government of Sierra Leone has put the Local Government/Local Councils, in charge of delivering social services and has given the Ministry of Social Welfare, Gender and Children's Affairs, the task to monitor/supervise and coordinate their activities, in line with the policies and guidelines of the Sectorial Ministries.

I would like to express my profound gratitude to all who contributed to the completion of this plan especially PLAN Sierra Leone and UNICEF. The success of this plan relies on the continued commitment of all stakeholders, within the government, non-governmental organizations, partners and users of the services we provide.

The Ministry of Social Welfare, Gender and Children's Affairs is committed, to the implementation of this plan, and shall utilize it as a reference document for planning, monitoring and evaluation.

Mojjue E. Kaikai  
MINISTER

## **Section 1: Introduction**

### **1.1 Our Background**

With the end of the war in 2002, the Government of Sierra Leone established a special ministry, the Ministry of Social welfare, Gender and Children's Affairs to fast track policies and interventions to address consequences of the war especially those affecting children women and the aged. The mandate required new structures and significant upgrades in social work skills plus improved management guidance and supervision.

With the passing of the Local Government Act of 2004, management and functional review of affected ministries, including the MSWGCA was requested to assess their readiness in the devolution process focusing on two areas:

- The management of the public services
- Strategies to improve on the efficiency of delivery of social services to the population through the decentralized structures and processes.

The review process identified planning, coordination and management constraints in the two divisions of the Ministry. The Ministry's low performance was attributed to the absence of a strategic direction and plan, limited institutional capacities, weak personnel base, and limited operational resources to perform its tasks.

Actions undertaken to address the constraints and weaknesses included recruitment, training and redeployment of staff, provision of required working tools and resources, improved information and records management and improved coordination mechanisms with the various MDAs, international and local organizations to lead the process of change. The review resulted to the establishment of five directorates: Children's Affairs; Social Welfare; Gender Policy and Advocacy; Policy Development and Strategic Planning; and Human Resources/Administration and Finance. Detailed roles and responsibilities of the directorates are attached as annex 1.

### **1.2 Legal Context and Instruments**

The overarching documents that guides the operation of the MSWGCA's is Sierra Leone's 2013 – 2018 Poverty Reduction Strategy Paper (PRSP) known as the 'Agenda for Prosperity' (A4P). The strategy seeks to deliver a fair and equitable society to include social protection for its citizens. Specifically, Pillar 6 in the A4P which covers social Protection aims to:

- Build a robust, coherent and transparent institutional and legal framework for the coordination of Social Protection services
- Build unified systems for delivering Social Protection
- Strengthen Social Welfare systems and formulate policies for alternative care for vulnerable children, the aged in dire need and other vulnerable groups
- Provide a minimum social protection package in education, health, nutrition and shelter for extremely poor and disadvantaged children, women, the aged, the disabled and other vulnerable groups.

The three main instruments of social protection are:

1. Welfare instruments which provide relief and sometimes recovery from deprivation
2. Risk-insurance instruments which seek to avert deprivation by establishing robust and accessible recovery mechanisms
3. Resilience- building instruments which aim to enhance real incomes and capabilities build assets and promote resistance.

### **1.3 National Policies and Legal Instruments**

#### **1.3.1 National Strategy for reduction of teenage pregnancy (2013 – 2015)**

The strategy aims to reduce number of girls who have a birth before age 19 from 34% (SLDHS) to 30% by 2015. Approximately, 47% of girls reaching 18 years of age have already had a child or are pregnant and 7 per cent of 15-19 year-olds have a live birth before the age of 15 years (DHS 2008 and MICS 2010).

#### **1.3.2 Children Protection Policies and Legislations**

##### **1.3.2.1 Child Rights Act 2007**

The Child Rights Act 2007 establishes statutory responsibilities to protect children from harm, which together with decentralization legislation places the responsibility for child protection services with district and town councils. Therefore, district level social services departments will now be responsible for ensuring that services are provided but the MSWGCA should ensure oversight, coordination and quality

##### **1.3.2.2 The Child Welfare Policy 2013**

The child welfare policy will help to guide and shape the implementation of child protection programmes of both government and non-government actors in order to bring about a more protective environment for children.

### **1.3.2.3 The Sierra Leone Policy on Alternative Care 2012-2017**

The Alternative Care Policy guides government, NGOs and communities on the protection of children involved in: Alternative Care; adoption processes; fostering; living independent or in children's homes.

## **1.3.3 Gender Policies and Legislation**

**1.3.3.1 The Devolution of Estates Act 2007** requires men and women to inherit equally from each other.

**1.3.3.2 The Domestic Violence Act 2007** intends to protect people, especially women and children, from abuse in the home.

**1.3.3.3 The Registration of Customary Marriage and Divorce Act 2007** provide protection for women and girls against early and forced marriage and against abandonment. It sets 18 years as the legal age for marriage, and as consent of both parties. It provides the applications for spousal maintenance to be set at a reasonable level.

**1.3.3.4 The Matrimonial Causes Bill** seeks to protect women on issues of alimony and child support and address certain customary practices such as the forced marriage of women and girls to men who have taken their virginity.

**1.3.3.5 The Sexual Offences Act** defines rape, consent to sexual intercourse and specifies sexual offences more clearly.

## **1.3.4 Social Welfare Policies and Legislation**

**1.3.4.1 The Anti-Human Trafficking Act 2005** seeks to prevent human trafficking.

**1.3.4.2 The National Disability Act 2011** seeks to protect and promote the welfare of persons with disabilities.

**1.3.4.1 The Palermo Protocol and Conventions against Trans - national Organized Crimes** seeks to prevent, suppress and protect victims of human trafficking.

## **1.4 Strategic Planning Process**

This Strategic Plan for the Ministry of Social Welfare, Gender and Children Affairs (MSWGCA) covers a five-year period 2014 – 2018. Its preparation process was highly participatory, and aligned with the Government's Agenda for Prosperity 2013 - 2018. A three-day strategic planning workshop was conducted facilitated by consultants. Through various exercises involving the ministry's personnel and representatives from partners, outputs were produced and incorporated into the final strategic plan. Prior to the workshop, the consultants reviewed a number of background documents provided

by the Ministry, and conducted feedback sessions with staff, other partners and the Minister.

The strategic planning process went through the following steps:

**Mobilization/Inception:** involving preliminary discussions between the consultant and the MSWGCA which created the basis for the review of related documents. In the discussions, schedule for the rolling out of the assignment was drafted and finalized.

Facilitated by a national consultant, **the retreat** with participation of staff members from the regions analyzed the ministry's successes and challenges and the lessons learned

**In the Visioning - Strategy – Implementation – Results** phase, the Ministry's staff and partners developed the vision and mission statements and the core values. Factors that may pose challenges to attaining the goals of the Ministry were identified and strategies to attain the goals Defined.

With outputs from the previous phases, the draft strategic plan was developed.

**Stakeholders Validated and Pre-Launch Testing/Consultations** with management, staff and partners to align the plan with to overarching policies such as the Poverty Reduction Strategy Paper (Agenda for Prosperity) and the Justice Sector outcomes

In a two day **interactive session**, the draft plan was further reviewed specifically focusing on the mission and vision statements, the core values, critical issues and strategic areas, goals, and directions. A monitoring framework was also designed.

## 1.5 The Structure of the Plan

The Plan is broadly divided into five sections:

Section 1 is the introductory which gives brief background to the MSWGCA, its legal context and instruments and policies that guides its operation. The section continues a description of the process through which the plan was developed.

Section 2 is a presentation of the identity of the Ministry, highlighting its Mission and vision statement and core values. It concludes with a list of its strategic stakeholders and partners.

Section 3 gives an analysis of the environment in which the Ministry operates and the strategic implications for its work. It analyses the political, educational, social and technological context, and its strengths, weaknesses, opportunities and threats.

Section 4 is a list of priority critical issues and challenges grouped under four strategic areas. Expected outcome for each set of priority issues is also indicated in this section.

Section 5 aligns the MSWGCA's respective outcomes with the pillars of the Agenda for Prosperity and outcomes of the 2011 – 2014 Justice Sector Reform Strategy and Investment Plan II

Section 6 further defined associated outputs, key activities /interventions and indicators for the four strategic areas the ministry should focus in the next five years.

Section 7 adds a monitoring and evaluation framework to the plan to enhance monitoring of the implementation of the plan.

## Section 2: Our Identity

### 2.1 Our Mission Statement IS:

### **Section 3: Situation Analysis**

The situation analysis highlights key achievements and accomplishments made by the MSWGCA. It analyses the political, economic, social and technological (PEST) factors and their respective implications for the work of the ministry. Internally, the strengths and weaknesses, and helping and hindering external factors (SWOT) were analyzed under the situation analysis.

Attached as appendix 2 are the achievements and accomplishments of the MSWGCA.

Table 1 is a summary of PEST and analysis and Table 2 the summary of the SWOT analysis

### 3.1 Political, Economical, Social and Technological Factors and Implications

**Table 1: PEST for Ministry**

Political Factors	Strategic Implications for the Ministry
<p>Good governance with decentralization focus; political will and commitment; government agenda for prosperity; security (peace and political stability)</p>	<p>Use the existing structures to highlight issues of women, children, aged and PERSONS WITH DISABILITY at the national and local levels</p> <p>Use the political will to lobby for greater resources for the Ministry</p>
<p>Gender policy favoring gender equality; 30% quota in all spheres of governance and employment; the incorporation of women's empowerment and gender equality: encouraging women to have greater participation in political governance and public decision making, promote economic empowerment of women and enhance women in cross border trade through regional co-operation</p> <p>More women are encouraged to participate in ward committee meetings (Local Government provisions), chiefdom community meetings and to prepare women to vie for elected positions as town and section chiefs, councilors – both municipal and district levels, mayors, district council chairpersons and members of parliament.</p>	<p>Set up monitoring framework to report on the implementation of 30% quota</p> <p>Once the WEGE policy is formulated, the end result will be a WEGE law that will provide for the establishment of a WEGE commission and a 30% quota.</p> <p>Constitutional reforms will push for remaining discriminatory provisions against women to be expunged.</p>
<p>Child Rights and Labor Laws for children, Sexual Offences Act; outdated laws and policies are being reviewed, Social Protection</p>	<p>Monitor and report on the violation</p>

framework	Lobby for full implementation of laws and policies
Conflict between national and customary laws	Develop and disseminate culturally sensitive IEC Conduct systematic public awareness campaigns using a mix of methods
Inadequate implementation of laws and policies developed	Lobby for full implementation of laws and policies and review existing laws and policies that perpetuate discrimination.
<b>Economic</b>	<b>Strategic Implications for the Ministry</b>
Growing formal sector that will increase revenue; increased tapping of local resources; mining investment opportunities; agricultural investment opportunities; increased youth employment; land utilization reforms; unequal distribution of national resources; high levels of poverty	Use gains from economic prosperity to highlight challenges of unequal development and continued marginalization. Conduct an analysis of how women and men, boys and girls are affected by economic growth strategies and policies.
Dependency on development partners	Identify and utilize local resources particularly with local council
Women will be given opportunities to participate actively in public and private sector procurement processes, sub-contracting for goods and services through local content provisions especially in the extractive industries, entrepreneurship development especially in agriculture, agri-business and food security.	Identify and collaborate with key stakeholders, particularly at local level to engage up skilling and opportunities
Availability of indigenous conflict resolution mechanisms	Increase the capacity of local leaders in protection and promotion of rights of children, women, PERSONS WITH DISABILITY and aged.

<b>Social</b>	<b>Strategic Implications for the Ministry</b>
Conflict between national and customary laws; attitudes towards women, children, aged and PERSONS WITH DISABILITY; strong traditional beliefs	Harmonize national and customary laws; ensure appropriate bye laws are synchronized with the national legal instruments on protection and promotion of the rights of women, children, PERSONS WITH DISABILITY and aged
Harmful traditional practices	Develop and disseminate culturally sensitive IEC  Conduct systematic public awareness campaigns using a mix of methods
Emphasis on education of girls and empowerment of women	Use potentially available resources for the promotion of girls' education
<b>Technological</b>	<b>Strategic Implications for the Ministry</b>
Mobile and Internet technology	Use technology to improve service delivery
Community radio and other media	Use media effectively for awareness creation, lobbying, advocacy and capacity development
Technology not always gender friendly and accessible	Encourage and coordinate special interventions to increase the capacity of women in use of technology
More girls to enter the sciences thus preparing them to become innovate and pursue education in science and technology.	Work with the Ministry of Education and educational institutions to advocate for and encourage higher numbers of females entering the sciences.

### 3.2 Strengths, Weaknesses, Opportunities and Threats

**Table 2: SWOT Analysis**

Strengths	Strategic Implications for MSWGCA	Weaknesses	Strategic Implications for MSWGCA
MSWGCA has structures and presence in all districts	Implementation of the Strategic Plan will be easier with the ministry's presence in all districts	Inadequate capacity: staff have inadequate technical and functional skills; low motivation; inadequate remuneration; poor working conditions	The need to assess the capacity of the Ministry, developing staff capacity through cost effective strategies; Review staff conditions of service and Improve work pace conditions and offices facilities
Ministry is staffed (i.e. at management level) with qualified and experienced staff	Motivate the staff to champion the implementation of the plan	Organizational culture i.e monitoring does not focus on results but activities	Need to introduce and institutionalize Result Based Monitoring (RBM) within the ministry and to its implementing partners.
Appropriate laws and policies have been enacted	There is appropriate legal and regulatory environment in place for plan implementation	Although laws and policies have been developed, their implementation is slow	Lobbying for the allocation of resources for the implementation of laws and policies.  Prioritization of the implementation of these policies and laws

Decentralization strategy and plans in place	The Ministry to facilitate the decentralization process Provide oversight so that quality services can be easily accessed	Weak leadership and management capacity	The Ministry should strengthen its leadership and management capacity  Recruitments, leadership training and OD interventions
<b>Opportunities</b>	<b>Implications</b>	<b>Threats</b>	<b>Implications</b>
Existence of INGOs operating in the field of child, women, aged and Persons with disability rights	The Ministry should strengthen its oversight and coordinating role	Inadequate political will to allocate resources to the Ministry. Poor support from INGOs and UN agencies to the ministry's work as a result of a lack of strategic direction.	Identification of new funding partners, Lobbying government, identifying conceptualizing and marking funding proposals to possible donors
Goodwill from bilateral and multilateral funding agencies	Use this goodwill to secure additional funding for plan implementation	Donor fatigue as results are not observed or reported and shared fast enough while donor interests are often not in line with national plans.	Introduce results based management system and institutionalize to enhance monitoring and reporting of results

## **Section 4: Strategic Areas, Critical Issues/Challenges and Expected outcome**

Reviewing our reflections on our past, our external and internal environments, several critical issues were identified as challenges for MSWGCA future (2014 – 2018) work. These issues were grouped under four key strategic areas identified as the most crucial challenges for MSWGCA future work. The four strategic areas, the accompanying and outcomes are presented in table 3:

4.1 Strategic Area 1: Coordination and Collaboration **Table 3a: Poor Coordination and Collaboration**

No.	Strategic Area	Issues/challenges	Outcome
1	Poor coordination and collaboration	<p>Weak coordination mechanism</p> <p>Inconsistent or no follow-up to management meetings</p> <p>Low level of coordination among partners</p> <p>No data base on actors, their specific interventions or areas of operation (location)</p> <p>Information considered to be sacred and are not shared</p> <p>No consultations among stakeholders</p> <p>Low level of collaboration among partners (MDA's, NGO, UN /social partners)</p> <p>Limited coordination, as well as inter sectorial collaboration within and outside</p> <p>Weak or non-existent data collection and record keeping mechanisms</p>	Coordination and collaboration are effective and efficient

## 4.2 Strategic Area 2: Human and Resource Capacity

No.	Strategic Area	Issues/challenges	Outcome
2	Weak Human and Resource capacity	<p>Inadequate resources to implement policies and programs</p> <p>Low budget allocation to the Ministry (MSWGCA)</p> <p>Poor management capacity</p> <p>Inadequate logistics support</p> <p>Weak information and data management system</p> <p>Lack of trained and qualified staff</p> <p>Inadequate technical capacity for effective service delivery</p> <p>Weak and poorly motivated manpower</p> <p>Lack of office space/infrastructure (logistics, stationary equipments) and mobility</p> <p>Weak performance management system</p> <p>Limited number of staff</p>	Institutional capacity is enhanced

**Table 3b: Weak Human and Resource Capacity** 4.3 Strategic Area 3: Monitoring and Evaluation

No.	Strategic Area	Issues/challenges	Outcome
3	Ineffective Monitoring and Evaluation system	<p>Ineffective M and E system to track performance and results</p> <p>Weak IMS</p> <p>Monitoring is activity based</p> <p>Limited knowledge in result based monitoring e.g. observing and reporting results</p> <p>Lack of data on programs on tracking systems (research and surveys)</p> <p>Lack of data base to support decision making planning and advocacy</p>	Monitoring and Evaluation system is effective and efficient

**Table 3c: Ineffective Monitoring and Evaluation systems**

#### 4.4 Strategic Area 4: Social Protection

No.	Strategic Area	Issues/challenges	Outcome
4	Inadequate social protection	<p>Increase in SGBV</p> <p>Increase in teenage pregnancy</p> <p>Low IEC on relevant and appropriate laws and policies</p> <p>Lack of clarity on protocols in programs implementation (referrals and reporting mechanisms)</p> <p>Deep rooted cultural attitudes and practices (child labor, child marriage, child initiation)</p> <p>Inadequate policies and programs to meet the needs of the socially challenged</p> <p>High number of children on the streets</p> <p>Increase in street beggars</p> <p>High number of child laborers</p> <p>Obsolete and weak enforcement of policies</p> <p>Acculturation to immoral and unhealthy behavior (movies, media, phone calls internet etc)</p> <p>harmful traditional practices</p>	Social protection is strong, sound and fully functional

**Table 3d: Inadequate Social Protection**

## Section 5: Alignment of MSWGCA strategic issues and outcomes with the Agenda for Prosperity pillars and the Justice Sector Outcomes

Table 4 aligns the pillars of the Agenda for prosperity with the pillars of the PRSP and with the outcomes of the Justice Sector Reform Strategy and Investment Plan II 2001 – 2014

<b>Outcome</b>	<b>Agenda for prosperity pillars</b>	<b>Justice sector outcomes</b>
1. Coordination and collaboration are effective and efficient	Aligned with pillar 3, 4, 6, 7 and 8	Aligned with outcome 3
2. Institutional capacity is enhanced	Aligned with pillar's 4, 5, 6, 7 and 8	Is aligned with all the outcomes to some extent
3. Monitoring and Evaluation system is effective and efficient	Is cross cutting and aligned with chapter 5 of the A4P	Cross cutting to the Justice sector outcome
4. Social protection is strong, sound and fully functional	Aligned with pillar 6	Aligned with all three outcomes
