Protecting Children against Torture in Detention: Global Solutions for a Global Problem brings together contributions by more than thirty international children's rights experts in response to former United Nations Special Rapporteur on Torture Juan E. Mendez's groundbreaking thematic report on children deprived of liberty.

The event will feature speakers from the UN, civil society, and academia, and provide insights into the timely topics addressed by the report, at the intersection between children's rights and the international human rights law prohibition of torture. Authors and experts will discuss the ongoing challenges of protecting the fundamental human rights of children in contexts ranging from criminal justice systems and armed conflict situations to institutionalization and migration detention.

RSVP REQUIRED BY MONDAY, 15 MAY to anicoles@wcl.american.edu.
